

Quit messing with all Americans First Ammendment.Sattelite Radio deserves to provide every channel they offer now, including local weather and traffic stations.

I'd also like to support the fight agains censorship in general.
If we do not like what's on any radio station, TV Channe or Web site, we can turn it off!

I Support Howard Stern and his fight, even though I am not a Stern fan!

Lay off this vendetta and do something worthwhile, like supporting the Military morel

By the way,

I VOTE !!!!!!!
